

<b>Mandrel Bends</b>	<b>Produced in-house using our mandrel bender, these bends are available in 45s, 90s, 180s, and U/J bends. Custom angles also available. Bends have straight extensions equal to at approx. 2x the tube diameter. If your application requires longer extensions or multiple bends on a single tube, please let us know.</b>	
<b>1.625" T304</b> Stainless Steel, .065 wall	45 degrees	\$23.98
	90 degrees	\$23.98
	180 degrees	\$26.97
	U/J Bend (Combination 180 and 45)	\$42.96
<b>2.0" T304</b> Stainless Steel, .065 wall	45 degrees	\$29.22
	90 degrees	\$29.22
	180 degrees	\$33.96
	U/J Bend (Combination 180 and 45)	\$53.44
<b>2.5" T409</b> Stainless Steel, .071 wall	45 degrees	\$25.44
	90 degrees	\$27.53
	180 degrees	\$31.71
	U/J Bend (Combination 180 and 45)	\$58.42
<b>3.0" T409</b> Stainless Steel, .071 wall	45 degrees	\$31.08
	90 degrees	\$31.08
	180 degrees	\$36.67
	U/J Bend (Combination 180 and 45)	\$63.52

<b>3.0" T304</b> Stainless Steel, .065 wall	45 degrees	\$33.24
	90 degrees	\$33.24
	180 degrees	\$50.24
	U/J Bend (Combination 180 and 45)	\$68.68

<b>1.625"</b> Cold Rolled Steel, .065 wall	45 degrees	\$21.89
	90 degrees	\$21.89
	180 degrees	\$24.18
	U/J Bend (Combination 180 and 45)	\$38.77
<b>2.0"</b> Aluminized Steel, 14 gauge	45 degrees	\$17.43
	90 degrees	\$17.43
	180 degrees	\$18.24
	U/J Bend (Combination 180 and 45)	\$29.86
<b>2.5"</b> Aluminized Steel, 14 gauge	45 degrees	\$18.56
	90 degrees	\$19.28
	180 degrees	\$20.70
	U/J Bend (Combination 180 and 45)	\$36.40
<b>3.0"</b> Aluminized Steel, 14 gauge	45 degrees	\$20.41
	90 degrees	\$20.41
	180 degrees	\$22.29
	U/J Bend (Combination 180 and 45)	\$37.96

<b>Mandrel Bends-Optional Services</b>	<b>These additional services can help you to more quickly custom-fit our mandrel-bends to your application.</b>	
	Cut to length, one end Please indicate the lengths of the extension(s) needed	\$7.50
	Flare/Expand one end Please indicate the sizes needed on each end. Flares/expansions require a minimum of 2" of extension from the end of the bend	\$7.50

<b>H-Pipe Kits</b>	<p><b>Our H-pipe kits are manufactured with 12" long "Tee" ends pre-notched and-welded. They are designed to allow you to trim the width of the 12" long center crossover tube to fit your particular application.</b></p> <p><b>Each kit includes two "Tee" ends, one straight crossover tube, and 5 mild steel saddle-style clamps. Stainless band clamps are available for an additional charge.</b></p>	
<b>2.0" H-Pipe Kits</b>	Aluminized steel, MIG-welded	\$29.99
	T304 Stainless steel, TIG-welded	\$49.99
<b>2.25" H-Pipe Kits</b>	Aluminized steel, MIG-welded	\$39.99
	T409 Stainless steel, TIG-welded	\$49.99
<b>2.5" H-Pipe Kits</b>	Aluminized steel, MIG-welded	\$39.99
	T409 Stainless steel, TIG-welded	\$54.99
<b>3.0" H-Pipe Kits</b>	Aluminized steel, MIG-welded	\$44.99
	T409 Stainless steel, TIG-welded	\$74.99

<b>X-Pipe Kits</b>	<p><b>Our X-pipe kits feature an <i>AuthenticX</i> design which allows the tubes to truly cross through eachother. This design is more difficult to manufacture, but allows us to offer an x-pipe that has a narrower profile than most other brands - perfect for late-model cars where space is tight!</b></p> <p><b>Expanded ends allow you to slip-fit onto your existing tubes. Each kit includes 4 mild steel clamps. Stainless steel saddle clamps or band clamps are available for an additional charge.</b></p>	
<b>2.5" X-Pipe Kits</b>	Aluminized steel, MIG-welded	\$74.99
	T409 Stainless steel, TIG-welded	\$104.99
<b>3.0" X-Pipe Kits</b>	Aluminized steel, MIG-welded	\$74.99
	T409 Stainless steel, TIG-welded	\$124.99
